Articles

A conflict of visions. Reflections on African futures studies, *Sam Cole*, 26.3, 259–274
A new paradigm in the organization of knowledge, *João Caraça and Manuel Maria Carrilho*, 26.7, 781–786
A transition from agriculture to regenerative food systems, *Kenneth A Dahlberg*, 26.2, 170–179
Adversary Delphi, *Olaf Helmer*, 26.1, 79–87
African futures. Challenges, achievements and the way forward, *Olugbenga Adesida, Ben Caiquo and José Brito*, 26.9, 903–911
Alternative images of a sustainable future, *Robert L Olson*, 26.2, 156–169
Assessing the validity of the Delphi technique, *Ryoto Ono and Dan J Wedemeyer*, 26.3, 289–304
Building a sustainable species-civilization. A challenge of culture and consciousness, *Duane Elgin*, 26.2, 234–245
Burden sharing in the transition to environmental sustainability, *Robert Goodland, Herman Daly and John Kellenberg*, 26.2, 146–155
Can technological innovation lead us to utopia?, *Ernest Braun*, 26.8, 852–861
Changing course: an outline of strategies for a sustainable future, *Walter H Corson*, 26.2, 206–223
Changing the USA's population signals for a sustainable future, *Virginia Abernethy*, 26.2, 138–145
Coherence, chaos and evolution in the social context, *Peter M Allen*, 26.6, 583–597
Complexity and coevolution. Methodology for a positive treatment of indeterminancy, *Martin O'Connor*, 26.6, 610–615
Complexity and thermodynamics. Towards a new ecology, *Eric D Schneider and James J Kay*, 26.6, 626–647
Complexity: fad or future?, *Ziauddin Sardar and Jerome R Ravetz*, 26.6, 563–567
Conquests, chaos and complexity. The Other in modern and postmodern science, *Ziauddin Sardar*, 26.6, 665–682
Creating a desirable 21st century Africa. The role of leadership and governance, *Joseph Okpaku, Snr*, 26.9, 999–1010
Cultures and economies. Irresistible forces encounter immovable objects, *D Paul Schafer*, 26.8, 830–845
Cyberculture, cyborg post-modernism and the sociology of virtual reality techniques. Surfing the soul in the information age, *Ralph Schroeder*, 26.5, 519–528
Dogs don't bark at parked cars, *Jim Dator*, 26.1, 89–94
Editor's introduction, *Trevor Williams*, 26.4, 363–364
Editorial: From forecasting to informed choices, *Colin Blackman*, 26.1, 3
Educating beyond violent futures in children's media, *Francis P Hutchinson*, 26.1, 5–23
Emergent complex systems, *Silvio Funtowicz and Jerome R Ravetz*, 26.6, 568–582
Experience with futures research in South Africa, *Philip Spies*, 26.9, 964–979
Exploring the futures of Africa. Bibliography and guide to information resources, *Martha J Garrett*, 26.9, 912–943
Future orientation in Hungarian society, *Erzsébet Nováky, Éva Hideg and István Kappéter*, 26.7, 759–770
Futures assessment by field anomaly relaxation. A review and appraisal, *R G Coyle, R Crawshay and L Sutton*, 26.1, 25–43
Futures studies and the future of Africa, *Colin Blackman*, 26.9, 883
Futures studies in Africa, *Olugbenga Adesida*, 26.9, 884–890
Global environmental security, energy resources and planning. A framework and application, *Peter J Stoett*, 26.7, 741–758
Global modelling in the 1990s. A critical evaluation of a new wave, *Bart van Steenbergen*, 26.1, 44–56
Global scenarios. Geopolitical and economic context to the year 2000, *Michael Godet, Pierre Chapuy and Gérard Comyn*, 26.3, 275–288
High-power computing and the value chain. IT use in the packaged consumer goods industry, *Simon Forge*, 26.4, 430–452
Infoglut and competing problems. Key barriers suggesting a new strategy for sustainability, *Michael Marien*, 26.2, 246–256
Integrating human needs into our vision of sustainability, *Mary E Clark*, 26.2, 180–184
Islam and the West. Can Turkey bridge the gap?, *Mehmet Öğütçü*, 26.8, 811–829
Is preservation inventing the past or creating the future?, *Tom P Abeles*, 26.5, 542–548
Life, the universe and emergence, *Sohail Inayatullah*, 26.6, 683–696
Managing the information revolution. Lessons for business from the French Revolution, *David Kaye*, 26.4, 416–429
Marketing as strategy. Beyond territorial boun-

daries, *Michael H Morris, Leyland F Pitt and Derek Bromfield*, 26.4, 391–402
New-Ideas Network, *Allen Tough*, 26.3, 350
New leaders shine light on shadow, *John Renesch*, 26.10, 1100–1103
Paths to sustainable development. The role of social indicators, *Hazel Henderson*, 26.2, 125–137
Politics in a parallel universe. Is there a future for cyberdemocracy?, *Michael R Ogden*, 26.7, 713–729
Profutures. The birth of the Strategic Prospective and Futures Studies International Network for Applied Methodology, *Donald Bain and Fabrice Roubelat*, 26.3, 345–349
Progress, nature and technology in late-modern transition, *Pentii Malaska*, 26.5, 529–541
Rethinking the legacy of Columbus: a vision of business-university collaboration between North and South, *Oliver W Markley*, 26.7, 771–780
Scenarios for the industrialization of the western Mediterranean, *Teresa Rojo*, 26.5, 467–489
Scientific uncertainty in a world of risk—a review, *Alison Dale*, 26.8, 862–867
Simplifying the complex. The paradigms of ecological function and structure, *C S Holling*, 26.6, 598–609
Social marketing for sustainability. The case of residential energy conservation, *Doug McKenzie-Mohr*, 26.2, 224–233
Strategies for shifting technological systems. The case of the automobile system, *Johan Schot, Remco Hoogma and Boelie Elzen*, 26.10, 1060–1076
Stumbling blocks to a sustainable society. Incoherences in key premises about the way the world works, *Lester W Milbrath*, 26.2, 117–124
Surviving a postmodern pathology, *Bernie Neville*, 26.10, 1092–1099
Sustainability as an evolving process, *Dennis Pirages*, 26.2, 197–205
Systems and the problematique. The case of a carbon tax, *Peter Roberts*, 26.7, 730–740
Technology and the transition to environmental sustainability. The problem of technological regime shifts, *René Kemp*, 26.10, 1023–1046
Technological trajectories and R&D for environmental innovation in UK firms, *Kenneth Green, Andrew McMeekin and Alan Irwin*, 26.10, 1047–1059
The board's role in strategy formulation. Some cross-cultural comparisons, *R I Tricker*, 26.4, 403–415
The cycle and meaning of the existence of humankind, *V N Kompanichenko*, 26.5, 506–518
The deadening power of dilemmas, *Joseph F Coates*, 26.10, 1103–1105
The divination of reality. The conflict between mythical and instrumental, oral and written narratives, and the future of poetry, *David Kuhrt*, 26.1, 57–78
The economic effects of public/private cooperative research, *L Bach, M Ledoux, R Magnaval and H Pero*, 26.8, 846–851
The electronic frontier. Exploring and mapping cyberspace, *Michael Batty and Bob Barr*, 26.7, 699–712
The end of strategy, *Trevor Williams*, 26.4, 365–377
The end of strategy. Selected bibliography, *Trevor Williams*, 26.4, 378–381
The future of good news: social responsibility and visionary journalism, *Tom Cooper*, 26.1, 95–99
The future of leadership, *Anthony J N Judge*, 26.10, 1086–1092
The future of participatory democracy in Africa, *Samuel Decalo*, 26.9, 987–992
The future of work in North America. Good jobs, bad jobs, beyond jobs, *Sally Lerner*, 26.2, 185–196
The greening of Swedish energy policy: a critique, *David W Fischer and Elisabet Berglund*, 26.3, 305–322
The greening of technology, *Chris Freeman*, 26.10, 1019–1022
The next forty years. A reprise, *Norman Macrae*, 26.4, 382–390
The relevance of business scenarios for Africa, *P A d'A Hill*, 26.9, 980–986
The social management of environmental change, *Alan Irwin, Susse Georg and Philip Vergragt*, 26.3, 323–334
21st century technologies. Opportunities or threats for Africa, *Adigun Ade Abiodun*, 26.9, 944–963
Using hierarchy theory to explore the concept of sustainable development, *Mario Giampietro*, 26.6, 616–625
Visions of sustainability. Introduction, *Michael Marien*, 26.1, 115–116
Weak states and the emerging taxonomy of security in world politics, *Clement Eme Adibe*, 26.5, 490–505
Why are there simple rules in a complicated universe?, *Ian Stewart and Jack Cohen*, 26.6, 648–664
Why we should care for future generations now, *Richard A Slaughter*, 26.10, 1077–1085
World War II, or, what did the future hold? (20th century future-think), *I F Clarke*, 26.3, 335–344
